TARIFF FORMAT

- A. Page Numbering** - Page numbers appear in the upper right corner of the page. Pages are numbered sequentially. However, new pages are occasionally added to the tariff. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between pages 14 and 15 would be 14.1.
- B. Page Revision Numbers** - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file with the Commission. For example, the 4th revised Page 14 cancels the 3rd revised Page 14. Because of various suspension periods, deferrals, etc., the most current page number on file with the Commission is not always the tariff page in effect. Consult the Check Sheet for the sheet currently in effect.
- C. Paragraph Numbering Sequence** - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2.
 - 2.1.
 - 2.1.1.
 - 2.1.1.A.
 - 2.1.1.A.1.
 - 2.1.1.A.1.(a).
 - 2.1.1.A.1.(a).I.
 - 2.1.1.A.1.(a).I.(i).
 - 2.1.1.A.1.(a).I.(i).(1).
- D. Check Sheets** - When a tariff filing is made with the Commission, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists the pages contained in the tariff, with a cross-reference to the current revision number. When new pages are added, the Check Sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc. remain the same, just revised revision levels on some pages). The tariff user should refer to the latest Check Sheet to find out if a particular page is the most current on file with the Commission.

INMATE SERVICES TARIFF

SECTION 3 - DESCRIPTION OF SERVICE AND RATES**3.1 General**

The Company provides automated operator assisted calling services for use by Inmates or other incarcerated persons in prisons, jails or other Correctional Institutions for communications originating and terminating within the State of South Carolina. The Company's services are available twenty-four hours per day, seven days a week. Intrastate service is offered in conjunction with interstate service. SECTION 3 - DESCRIPTION OF SERVICE AND RATES, (CONT'D.)**3.3 Institutional Operator Assisted Calling**

Institutional operator assisted service allows inmates to place collect calls through an automated call processing system. The call processing system prompts the inmate and the called party such that the call is completed without live operator assistance. Calls are placed on a collect-only basis to the called party.

A number of special blocking and screening capabilities are available with Institutional operator services provided by the Company. These capabilities allow Institutions to control Inmate access to telecommunications services, reduce fraudulent use of the Company's services, and eliminate harassing calls to persons outside the Institution.

For services provided to inmates of Institutions, the following special conditions apply:

1. Calls to "900", "976" or other pay-per-call services are blocked by the Company.
2. At the request of the Institution, the Company may block inmate access to toll-free numbers (e.g., 800, 888) and dialing sequences used to access other carriers or operator service providers (e.g., 950-XXXX, 10XXXX).
3. At the request of the Institution, the Company may block inmate access to "911", "411", or local operators reached through "0-" dialing.

SECTION 3 - DESCRIPTION OF SERVICE AND RATES, (CONT'D.)**3.4 Prepaid Institutional Service****3.4.1 Applicability**

Prepaid Institutional Service calls are originated by entering a Personal Account Code. The Company's system informs the Customer (i.e., inmate) of the Available Usage Balance remaining in his/her Prepaid Account and prompts the Customer to place a call by entering a destination telephone number. Network usage for calls placed is deducted from the Available Usage Balance in the Customer's Account on a real time basis as the call progresses. With Prepaid Institutional Service, the Customer may purchase a voucher in any denomination. A Personal Account Code is assigned to each voucher with instructions for accessing and using the service. All monetary transactions take place between the Institution and the Customer, and are under the direct and complete control of the Institution.

Prepaid Institutional Service allows the Customer to make calls up to the total amount purchased divided by the per minute rate. Vouchers are not renewable. No minimum service period applies. Available Usage on the Customer's voucher is non-refundable.

Prepaid Institutional Service rates are not distance or time of day sensitive. Holiday discounts do not apply. Network usage for Prepaid Institutional Account Calls is deducted from the Available Usage Balance in Customer's Prepaid Account in full minute increments. For debiting purposes, call timing is rounded up to the nearest one (1) minute increment after the initial minimum period of one (1) minute. Usage charges are computed and rounded up to the nearest penny on a per call basis.

Account balances as well as rates and charges are available from the system upon access to place a call.

SECTION 3 - DESCRIPTION OF SERVICE AND RATES, (CONT'D.)**3.5 Advance Pay Accounts**

In those areas where the Company does not have a direct billing agreement with the existing local exchange carrier, or upon a Customer's request, the Company will set up a Advance Pay Account with the Called Party (Customer) for payment of collect calls placed from institutions served by Global Tel*Link. Funds in the Customer's Advance Pay account may only be used for payment of collect calls placed by inmates to telephone numbers specified by the Customer. Establishment and maintenance of an Advance Pay Account is required to complete collect calls to Customers served by local exchange carriers with which the Company does not have an existing direct billing and collection agreement.

The minimum amount required to set up the Advance Pay Account is \$25.00. Upon request, and after the required minimum payment is received, the Company will provide the Customer with a personal identification number (PIN) and a toll-free number to call in order to set up the account information, including the permissible numbers that the inmate may call.

Additional payments will be accepted with a \$50.00 payment maximum. Initial and additional payments into the account may be made by cash, check, credit card or Western Union. Transaction fees will apply for credit card and check by phone transactions. All payments will be subject to applicable taxes.

When an inmate places a call, the Customer is informed of both the caller's identity and the account balance prior to accepting the call. Customers may also contact the Company's toll-free customer service number for account balance information at any time.

If the Advance Pay Account balance becomes depleted, calls placed to the numbers specified by the Customer will be blocked until the Advance Pay Account is replenished.

The Customer may close the Advance Pay Account at any time. At the written request of the Customer (usually upon release of an inmate from an institution), any remaining balance in the Account will be refunded to the Customer after deducting any call charges, applicable taxes and transaction fees incurred during the current billing cycle. Advance Pay Accounts will be automatically dissolved following three months of zero activity (i.e., no calls placed, no account replenishment, no customer service inquiries.)

All security measures and inmate calling restrictions as set forth elsewhere in this tariff are also applicable for any calls made using an Advance Pay Account.

SECTION 3 - DESCRIPTION OF SERVICE AND RATES, (CONT'D.)**3.5 Advance Pay Accounts, (Cont'd.)****3.5.1 Rates and Charges**

- A. Option 1** - Advance Pay Customers' rates and charges are the same as those set forth in the Company's Institutional collect call rate schedules.
- B. Option 2** - Rates and charges for Advance Pay Accounts are provided at a discount, per request of a correctional facility.

3.6 Institutional Prepaid Operator Assisted Calling**3.6.1 Prepaid Debit Accounts**

With a Prepaid Debit Account, each inmate has the option to transfer funds from his/her personal account to his/her telephone account. This is accomplished by facility personnel or through a direct interface between the commissary system and/or booking account and the inmate phone system. This account is associated with the inmate's Personal Identification Number (PIN.) When the inmate places a call, he/she has the option of calling collect or prepaid/debit. Once debit is selected, the inmate enters the PIN and called telephone number. All deposits to the account are paid to and handled by the entity managing the account, e.g., JMS, facility, commissary, etc. The Company receives payment from the Institution; it does not engage in direct monetary transactions with the inmate.

The Company's system automatically informs the caller of the Available Usage Balance remaining in the Prepaid Debit Account, and provides prompts to place the call by entering the destination telephone number. Network usage is deducted from the Available Usage Balance in the account on a real time basis as the call progresses.

Payment for Prepaid Institutional Calling Services and any Available Usage in the Prepaid Debit Account is refundable upon request, after release of the inmate from the Confinement Institution. The Available Usage Balance expires three months from the date of the last activity on the Prepaid account. No refunds of unused balances will be issued after the expiration date.

3.6.2 Rates and Charges

- A. Option 1** - Rates and charges for Prepaid Debit Accounts are the same as those set forth in the Company's institutional collect call rate schedules.
- B. Option 2** - Rates and charges for Prepaid Debit Accounts are provided at a discount, per request of correctional facility.
